

# Central Ferry Fire

## Fire Update

August 14, 2025

## Fire Information

Email: [2025.centralferry@firenet.gov](mailto:2025.centralferry@firenet.gov) – Phone: 509-796-7909

**PUBLIC AND FIREFIGHTER SAFETY IS THE NUMBER ONE PRIORITY**

Estimated Acres: 6,000

Personnel: 68 +

Containment: 0%

Cause: Vehicle Fire

**Air Operations:** **NO DRONES IN FIRE AREA.** Air resources are being used on the Central Ferry fire. If drones are seen within or near the fire, aircraft will not be able to assist fire fighters.

**Operational Accomplishments:** Air resources, fire fighters and local farmers with disc plows were engaged in suppressing the fire. High winds caused rapid fire spread, jumping over disc plow lines. Aircraft assisted fire fighters during the afternoon and early evening. Fire line construction has started and will need to be completed.

**Today:** Three strike teams of engines arrived overnight; additional fire crews will be arriving throughout the day. Fire Fighters will continue to work on establishing fire line around the fire and securing existing fire line. Air resources will be used as needed during the day.

**Weather:** Temperature high near 85, southwest winds 8 to 10 mph with gusts as high as 18 mph.

**Evacuations:** Level 2 Evacuations are in place. South Boundary is the Snake River. West Boundary Hwy 127 from Peyton to Dusty, North Boundary Hwy 26 from Dusty to Sommers Road. East Boundary from Hwy 26/Sommers Road jct, along Sommers rd., and Almota rd. south to the Snake River.

**If you feel threatened by the fire evacuate, do not wait to be notified.**

**Safety: IF YOU FLY WE CAN'T.** No Drones Please in fire area. We ask all community members, visitors, and travelers to please slow down on the roads, look out for fire crews, fire equipment, and be aware of drifting smoke. We are still in the area working and have crews and equipment on the roadways.
